LIQUID ACID CONCENTRATE

Nephroxa Acid Concentrates :

Soxa Pharma is producing custom-formulations (About 178 types) of haemodialysis concentrates as per customers' requirements with labelling in any language of choice. Available in various packing size such as 3.78L, 5L, 6.8L, 10L.

Available in Liquid as well as Powder Form.

Variants available to use with Part-B Powder Bag as well as with Bicarbonate Cartridges and Bibags.

Citric acid and Acetic acid based custom formulations available as per prescription by doctors.

We are supplying all products with best door to door services by own vehicles to ensure safety and timely delivery.

Our products are approved in about 13 countries worldwide and we are following BP,USP and all available international standards requested by customers.

On demands of some countries we also provide ultra-pure haemodialysis fluids made from ultra-pure water.

We are also having concept of collapsible bag packing which will save space in clinic after use.
