

RENAL CARE SOLUTIONS

"Dialysis Done Differently"

Company Profile

“Individuals with Kidney Disease, who are able to obtain treatment early, experience a higher quality of life and are able to maintain more of their day-to-day activities, Including keeping their jobs.”

XAVIER BECERRA

Company Overview

Who we are...

Renal Care Solutions (Pty) Ltd is a premier medical device and consumable supply company focused on renal healthcare.

With a strong commitment to improving patient outcomes, we specialise in providing innovative solutions for the management and treatment of kidney diseases.

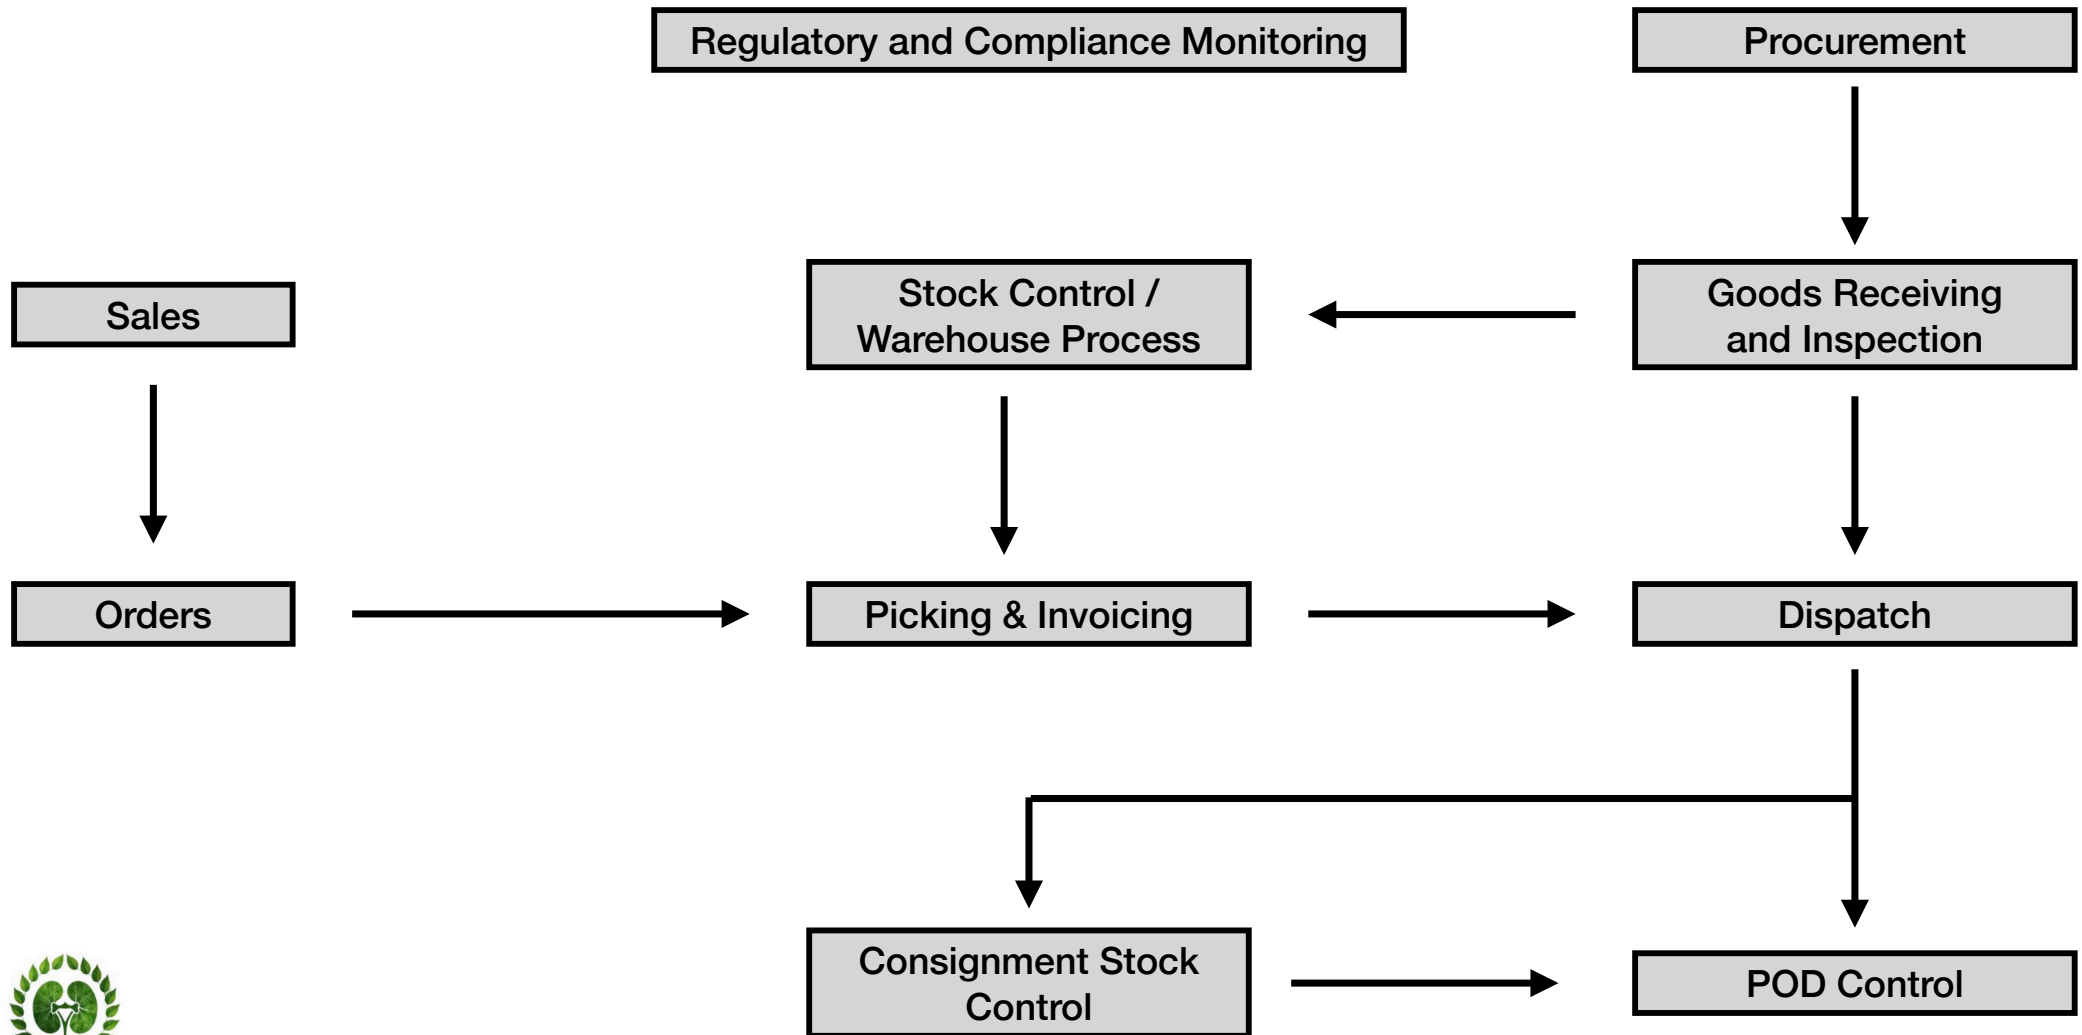

As an established channel partner for Sub-Saharan Africa, we leverage our extensive network and expertise to deliver high-quality products and services to healthcare providers across the region.

From humble beginnings we have grown into one of the largest wholesaler suppliers of dialysis products in Africa. The top manufacturers and Dialysis Service Providers choose to partner with us based on our ability to both penetrate the market as well as deliver on our commitments. We do what we say... always!

As Renal Care Solutions, we always hold firm to our core values and never losing sight of the fact that in the end, the patient at the end of day is our main priority and as such, we never compromise on product quality which ensures patient safety.

Your holistic end to end service provider, focussed on improving access to the best Renal Care technologies and improving treatment outcomes.

Key Partnerships

Renal Care Solutions (Pty) Ltd proudly serves as the exclusive channel partner for leading companies in the renal care industry:

- Fresenius Medical Care
- NephroCan
- Nephroxa
- Vivantum

RENAL CARE SOLUTIONS

Fresenius Medical Care

Fresenius Medical Care stands at the forefront of renal care and dialysis technology, focusing on delivering quality treatments while navigating the complexities of market pressures and regulatory challenges.

The company aims to uphold its commitment to patient care through strategic initiatives that prioritise innovation and operational efficiency. For this reason, they have onboarded Renal Care Solutions as their appointed channel partner to support their export market as well as grow their local customer base in South Africa.

Their best in class product range includes:

- **Peritoneal Dialysis Systems:**

Cutting-edge systems that facilitate home-based dialysis, empowering patients with the flexibility and independence to manage their treatment effectively.

- **Fluid Management Solutions:**

Advanced products designed to ensure optimal fluid management during dialysis treatments, enhancing safety and efficacy.

- **Dialysis Machines and Chairs:**

Specialised, cutting edge dialysis equipment (widely regarded as the best in the world) that incorporates the latest medical technologies, promoting overall health and recovery for the patients treated on them.
