

Haemodialysis

bibag®

Online dry bicarbonate concentrate

**FRESenius
MEDICAL CARE**

Easy and ergonomic handling and transportation

- Small and lightweight design
- Minimal storage requirements
- Used at an ergonomic height on the machine
- Automatic emptying of the bibag at the end of the treatment

Contributing to a high level of hygiene

- Chemically stable dry form
- Shelf life of three years from date of production
- Dissolved directly at the machine immediately before use thereby helping to prevent microbiological growth

Improved eco-performance

- Reduced transport weight*
- Reduced waste volume* due to collapsible bag design
- Recyclable**
- PVC-free

* compared to liquid bicarbonate in canisters

** according to Directive on Packaging and Packaging Waste (94/62/EC) and standard EN 13427:2004

**Specifications**

Packaging:	Units / box	Boxes / pallet
